About me

I am a goal-oriented, self-disciplined individual with a strong work ethic. I excel in problem-solving, adapt quickly to new challenges, and communicate effectively. As a dedicated team member, I thrive on collaboration and contribute to a positive team dynamic. My expertise lies in back-end technologies and I continuously seek opportunities to expand my programming knowledge.

I approach every task with responsibility and a growth mindset.

Programming Skills

- Software Development, Object-Oriented Programming, Data Structures and Algorithms, Computer Network, Unit and Integration Testing
 - Java, Spring Boot, Spring (Core, MVC, Security, DataJPA), Hibernate, JUnit, Mockito, JavaScript, AngularJS, PostgreSQL, MySQL, SAP Commerce Cloud, Git, HTML, CSS
-

Experience

Software Engineering Intern

August 2023 – October 2023

E-Commint

Remote, Intern

- Gained experience about the development process of E-Commerce applications and features.
- Learned about SAP (Hybris) Commerce Cloud technology.
- Developed Bookstore project with Hybris Commerce Cloud.
- Experienced software development methods with Agile software development.

Software Engineering Intern

July 2023

T.C. Department of Information Processing of the Ministry of Youth and Sports

Ankara, Turkey

- Gained basic network concepts, TCP/IP protocols, OSI Reference Model and layers, network topologies, and theoretical information about basic network devices.
 - Practiced the subject of splitting into subnets with IP addressing practically.
 - Created real-world scenarios by creating home and corporate networks with the Cisco Packet Tracer simulation tool.
-

Education

Eskisehir Technical University

Eskisehir

Bachelor's Degree, Computer Engineering

Sep. 2019 – June 2024

Coding Projects

Blog App

April – May 2023

- I built Real-Time REST APIs by developing a complete Blog application.
- Technologies I used Java, Spring Boot 3, Spring (Core, Security, MVC, Data JPA), JWT, MySQL

E-Commerce App

June 2023

- I am learning how to build a Full Stack E-Commerce website with entry-level Angular and Spring Boot.
- I am learning how to build Angular front-end applications all from the beginning.
- Technologies I used Java, AngularJS, Spring Boot 3, Spring (Core, Security, MVC, Data JPA), MySQL.
